

The White House Opportunity and Revitalization Council

Completed Program Targeting Actions

The Opportunity Zone tax incentive is a powerful new tool meant to bring private capital to underserved communities. However, economically distressed communities require more than private capital alone. Many of these communities are in need of public-sector support and regulatory streamlining to ensure they develop the foundations necessary to support a thriving private sector. Public investment in economic development, entrepreneurship, education and workforce training, and safe neighborhoods — along with guidance for engaging with investors and entrepreneurs — will help communities unlock private capital to create sustainable growth. This public-sector investment serves as a means by which to attract and continue the flow of private capital-investment into Opportunity Zones.

Acknowledging this need, President Donald J. Trump signed Executive Order 13853 on December 12, 2018. This Order established the White House Opportunity and Revitalization Council to carry out the Administration’s plan to target, streamline, and coordinate Federal resources to be used in Opportunity Zones and other economically distressed communities. This public-sector commitment overlays the Opportunity Zone tax incentive in the Tax Cuts and Jobs Act. Together, private capital and public investment will stimulate economic opportunity, encourage entrepreneurship, expand educational opportunities, develop and rehabilitate quality housing stock, promote workforce development, and promote safety and prevent crime in economically distressed communities. State, local, and tribal leaders have an opportunity to leverage the work of the Council and to also conduct similar reviews of their own programs and regulations.

The White House Opportunity and Revitalization Council members have identified over 200 Federal programs where targeting, preference, or additional support could be granted to Opportunity Zones. As of January 31, 2020, the Council has already taken action on 202 grants or programs:

Department of Agriculture

Disaster Relief Act 2019 Grant Funds for Community Facilities	As part of the Additional Supplemental Appropriations for Disaster Relief Act, 2019, the Rural Housing Service's Community Facilities Program (CF) received supplemental grant funding available for necessary expenses related to the consequences of Hurricanes Michael and Florence and wildfires occurring in calendar year 2018, tornadoes and floods occurring in calendar year 2019, and other natural disasters, to remain available until expended. The authority for the Agency to administer the Community Facilities Grant Program is provided in the Consolidated Farm and Rural Development Act (CONAct). The grant funds will be administered in accordance with this notice of funds availability.	To leverage investments in rural property, the Agency also encourages projects located in rural Opportunity Zones where projects should provide measurable results in helping communities build robust and sustainable economies.	Applications will be submitted to a processing office as designated by the USDA Rural Development State Office in the state where the applicant's project is located. Agency state office contact information is available at https://www.rd.usda.gov/about-rd/offices/state-offices .	Economic Development
Farm to School Grant Program	This program is designed to increase the availability of local foods in schools, grants can help new farm to school programs get started or expand existing efforts. grantees accomplish farm to school objectives that will be sustained in the long term. Funds support a wide range of activities from training, planning, and developing partnerships, to creating new menu items, establishing supply chains, offering taste tests to children, purchasing equipment, planting school gardens, and organizing field trips to agricultural operations.

ReConnect Pilot Program

The ReConnect Program provides loans, grants, and loan/grant combinations to facilitate broadband deployment in rural areas. In facilitating the expansion of broadband services and infrastructure, the pilot will fuel long-term rural economic development and opportunities in rural America. One of those opportunities is precision agriculture. The use of this technology requires a robust broadband connection. The awards made under this program will bring high speed broadband to the farms which will allow them to increase productivity.

For applications that are proposing to provide service in at least part of an area identified as an Opportunity Zone points are awarded.

Beginning on 1/31/20, applications can be submitted through the RUS on-line application portal through 3/16/20. Apply at <https://reconnect.usda.gov>.

incubators. These incubators will develop new products, services, and commercial activities that result in new positions for individuals with low incomes, while also addressing a local unmet need or solution to social problems for the community's constituents and its stakeholders. Projects also address the personal and community barriers that must be overcome to help individuals with low incomes become self-sufficient. (e.g., transportation, childcare, education/training, language, etc.) Projects can use funds for costs associated with social enterprise start-up or expansion activities, as well as technical assistance and incubator services to these businesses. Projects must be located in geographic areas with a demonstrated need for social enterprise, such as a county designated as having persistent poverty.

Community Economic Development Projects

The program awards funding for well-planned, financially viable, and innovative projects to enhance job creation and business development for individuals with low income. CED grants will be made as part of a broader strategy to address objectives

Bonus points will be provided to projects located in designated Opportunity Zones.

such as decreasing dependency on federal programs, chronic unemployment, and community deterioration in urban and rural areas. CED projects are expected to actively recruit individuals with low income to fill the positions created by CED-funded development activities, to assist those individuals to successfully hold those jobs and to ensure that the businesses and jobs created remain viable for at least one year after the end of the grant period. CED-funded projects can be non-construction or construction projects, however, short-term construction jobs associated with preparing for business startup or expansion are not counted when determining the number of jobs created under the CED program as they are designed to be temporary in nature.

Early Head Start Expansion and Early Head Start-Child Care Partnership Grants

This program competitively awards funding for the purpose of expanding access to high-quality, comprehensive early learning services for low-income infants and toddlers and their families through traditional Early Head Start programs or through partnerships between Early Head Start programs and child care providers.

The Funding Opportunity Announcement for the third round of funding for this grant program was updated to include language that reserved the right for the prioritization of funding for qualified applicants who

propose services in Opportunity Zones.

Health Center Program Service Area Competition (SAC)

The Health Center Program supports nearly 1,400 organizations that operate approximately 12,000 health care delivery sites across the nation serving more than 28 million people. Each year, approximately one-third of the grants are re-competed to ensure continued services in existing service areas. Additionally, when funding is available, new organizations may also compete for funding to establish health centers in new areas.

The application requires the applicant to identify if the service area is located in an Opportunity Zone. Opportunity Zones are included in the objective review criteria in the FY 19 and upcoming FY 20 NOFOs that establish new or compete existing service areas.

Opportunity Zone Grant Certification Form

HUD has drafted a proposed grant certification form. This form will certify that valuable HUD resources are in fact being targeted to and expended in America's most economically distressed areas, including Opportunity Zones. Additionally, it will enable HUD to gather and analyze the most accurate data regarding the use of taxpayer funds; specifically, how they are being utilized by HUD's grantee partners to support the President's mission of revitalizing distressed communities. The collection of this information will help to guide the Department through future grant awards and inform HUD's strategy to maximize non-profit and private sector investment. It is also anticipated that other Federal agencies will also implement this form for their grants offering benefits to Opportunity Zones or distressed communities.

The official 60-Day Notice of Proposed Information Collection for the Opportunity Zone Grant Certification Form was published on October 10th, 2019 in the Federal Register.

the Procurement Pilot is completed.

Project Rental Assistance Program of Section 811 Supportive Housing for Persons with Disabilities

This program seeks to identify, stimulate, and support sustainable state approaches that will transform the provision of housing for persons with disabilities while providing access to appropriate supports and services. This program provides project-based rental assistance funding to housing agencies. These funds are available to be used as project-based rental assistance for housing units integrated within multifamily properties that are set-aside for extremely low-income persons with disabilities who are eligible for community-based long-term care services and supports provided under a State Medicaid Program or other comparable long-term services program.

The FY 2019 NOFA seeks to identify eligible applicants that will be able to align their Project Rental Assistance Program with state or local initiatives that will increase the supply of permanent supportive housing for persons with disabilities. The NOFA encourages grantees to consider placing units in Opportunity Zones.

for construction, Capital Advance awards provide operating subsidies in the form of a Project Rental Assistance Contract (“PRAC”) to maintain ongoing affordability over the next forty years. These much-needed units provide persons with disabilities the opportunity to live as independently as possible within the community in an integrated environment that provides access to appropriate and voluntary supportive services.

Self-Help Homeownership Opportunity Program (SHOP)

This program provides funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the state for sweat equity and volunteer-based homeownership programs for low-income persons and families.

Supporting Effective Interventions for Adolescent Sex Offenders and Youth with Sexual Behavior Problems

This program awards funding for project sites to develop a community-based, multidisciplinary, comprehensive approach to responding to youth with sexual behavior problems, their child victims, and their families as well as a training and technical assistance provider to support project sites in developing intervention models. The purpose of this program is to prevent sexual reoffending, promote healing, and provide services for victims and

families. The program will focus on interfamilial and/or co-residential child victims and youth with problematic sexual behaviors. Examples of these types of sexual behaviors include, but are not limited to, sexual contact between children who do not know each other well (i.e., foster home or institutional setting); sexual contact between children of different ages, sizes, and developmental levels; aggressive or coerced sexual contact; sexual contact that causes harm to the child or others; and sexual contact that causes another child to be highly upset and/or fearful. Applicants should propose comprehensive, evidence-based intervention strategies for serving both the child victim(s) and the youth with sexual behavior problems and their parents/caregivers.

Supporting Victims of Gang Violence

The program awards funding to support the efforts of communities to promote justice and healing for juvenile victims and their families as well as witnesses that have been affected by gang violence in their community. Under this initiative, organizations working closely with the

criminal justice system will provide comprehensive victim assistance services to ensure that youth (and their families) impacted by gang violence are not further traumatized and have adequate supports to feel safe in their community. This may include emergency crisis response, referrals for services, post-trial notification, and liaison services during the legal process. In addition, similar services will be provided to youth witnesses of gang violence.

Transforming America's Response to Elder Abuse: Enhanced Multidisciplinary Teams (E-MDTs) for Older Victims of Abuse and Financial Exploitation

This program will support the development and/or enhancement of multidisciplinary teams (MOT) and to strengthen the capacity of "enhanced MDTs" to better identify and respond to cases of abuse and more comprehensively serve and support victims of elder abuse and financial exploitation by also funding a National Elder Abuse Training and Technical Assistance Center. Through these E-MDTs, the Office for Victims of Crime (OVC) hopes to improve case outcomes while minimizing additional trauma and restoring safety and security to older adult victims of crime and potentially hold offenders accountable.

and activities by prosecutorial and law enforcement agencies. OJJDP has a long history of supporting community efforts to combat gang crime. Through OJJDP's Comprehensive Gang Model, communities can implement a comprehensive approach to gang crime and youth violence reduction. Suppression is a key component of OJJDP's Comprehensive Gang Model. Focused deterrence and suppression strategies can dissuade individuals and gangs from committing crimes. Such approaches highlight the punishments or legal recourse that will ensue in the commission of a crime and discourage the person or group from committing crimes in the future. These efforts, coupled with the other key components of the Comprehensive Gang Model, offer a holistic approach to support the efforts of law enforcement in combatting gang crime and promote public safety in communities. Eligible applicants will be required to implement OJJDP's Comprehensive Gang Model by working with the National Gang Center, and may use grant funds to support gang suppression activities.

Investing in Qualified Opportunity Funds

The "Investing in Qualified Opportunity Funds" final regulations govern the extent to which taxpayers may elect the Federal income tax benefits provided by Section 1400Z-2 of the Internal Revenue Code with respect to certain equity interests in a qualified opportunity fund (QOF).

The final regulations address the comments received in response to the two notices of proposed rulemaking issued under section 1400Z-2 and provide additional guidance for taxpayers eligible to elect to

The final regulations are effective on 3/13/20. The final regulations were published in the Federal Register on 1/13/20. The regulations as so posted are located at

Economic Development

temporarily defer the inclusion in gross income of certain prior gains if corresponding amounts are invested in certain equity interests in QOFs, as well as guidance on the ability of such taxpayers to exclude from gross income additional gain recognized after holding those equity interests for at least 10 years. The final regulations also address various requirements that must be met for an entity to qualify as a QOF, including requirements that must be met for an entity to qualify as a qualified opportunity zone business. The final regulations affect entities that self-certify as QOFs and eligible taxpayers that make investments, whether qualifying or non-qualifying, in such entities.

New Markets Tax Credit Program (NMTC)

The New Market Tax Credit Program (NMTC Program) aims to break a cycle of disinvestment by attracting the private investment necessary to reinvigorate struggling local economies. The NMTC Program attracts private capital into low-income communities by permitting individual and corporate investors to receive a tax credit against their federal income tax in exchange for making equity investments in specialized financial intermediaries called Community Development Entities (CDEs).

Although the CDFI Fund does not give preference to NMTC Applicants proposing to target Opportunity Zones, an Applicant that identifies it will be working in an eligible Opportunity Zone or other defined areas of higher distress will generally be scored more favorably. (Note that not all Opportunity Zones are eligible for New Market Tax Credits.)

Application opened September 4, 2019; closing date October 28, 2019; information on CDFI website at <https://www.cdfifund.gov/programs-training/Programs/new-markets-tax-credit/Pages/default.aspx>

support of Opportunity Zones.

Small Business Administration

504 Loan Program (Certified Development Companies)	This program fuels economic growth and job creation by providing small businesses with long-term, fixed-rate financing to acquire fixed assets (e.g., real estate, buildings, machinery).	On November 2, 2018 via Federal Register Notice, SBA designated Opportunity Zones as additional areas where our 504 Program’s job creation or retention requirements will be more relaxed, to incentivize lending by Certified Development Companies (CDCs) and Third-Party Lenders in these areas. Opposed to a requirement to create or preserve one job for every \$75,000 guaranteed by SBA, the requirement for specially-designated areas (which now includes Opportunity Zones) is now \$85,000 per job created or preserved if the project is in an Opportunity Zone.	Federal Register Document Number: 2018-24033; Posted on 11/2/18. https://www.federalregister.gov/documents/2018/11/02/2018-24033/development-company-loan-program-job-creation-and-retention-requirements-additional-areas-for-higher	Entrepreneurship

to finance a wide variety of business activities, including purchasing machinery, furniture, fixtures, supplies and materials, improvements to land and buildings, and working capital.

made to small businesses where the physical address of the operating concern is located in a rural area or a historically underutilized business zone (HUBZone), both of which overlap significantly with Opportunity Zones:
 (a) the annual service fee paid by lenders will be zero
 (b) the upfront guaranty fee typically paid by the small business applicant will be lowered significantly to 0.6667% (66.67 basis points) of the guaranteed portion of the loan.

Community Advantage Loan Pilot Program

The Community Advantage (CA) Pilot program is intended to expand small business access to capital in underserved markets by allowing mission-focused, community-based lenders to make 7(a) loans to small businesses in an amount up to \$250,000, with an SBA guarantee as high as 85 percent.

Effective October 1, 2018, SBA expanded the Pilot Program definition of “underserved markets” to include Opportunity Zones. CA lenders are required to make at least 60% of their CA loans in underserved markets.

Fund Competition

accelerators and awards them cash prizes that they may use to fund their operations costs focused towards helping entrepreneurs apply for government R&D funding. SBA will award up to 60 prizes of \$50,000 each for a total of \$3 million in prizes.

Accelerator's effort under the funding opportunity to entrepreneurs in one of four specified groups. One of the targeted groups is: "Entrepreneurs that live in an Opportunity Zone, or whose businesses are located in and operate out of an Opportunity Zone." The competition begins on June 10, 2019 and ends June 20, 2019.

HUBZone Program Provisions for Governor-Designated Covered Areas

The Federal government limits competition for certain contracts to SBA-certified small businesses in historically underutilized business zones (HUBZones), areas with low income, high poverty and/or high levels of unemployment. It also gives preferential consideration (i.e., 10 percent price evaluation preference) to those businesses in full and open competition. Congress has statutorily imposed Federal small business procurement goals; namely, that the Federal government shall direct a percentage of contract spending dollars to small businesses and certain categories of small businesses. Currently, one of the contracting goals

SBA issued a direct final rule on November 18, 2019 that will allow governors to petition the SBA's Administration to designate HUBZone status to certain covered areas. A covered area is an area in a state that is located outside of an urbanized area, as determined by the Census Bureau, with a population of not more than 50,000, and for which the average unemployment rate is at least 120 percent of the average unemployment rate. The rule was published in

Federal Register Notice published on 11/15/19 (Document Number 2019-24610, Pages 62447-62449) located at https://www.federalregister.gov/documents/2019/11/15/2019-24610/hubzone-program-provisions-for-governor-designated-covered-areas?utm_medium=email&utm_source=govdelivery

Economic Development; Entrepreneurship

Opportunity Zones are critical to the economic development of distressed cities.

Small Business Development Centers

The SBDC program, a vital part of the entrepreneurial ecosystem that links the resources of Federal, State and local governments with that of the educational community and private sector, is the SBA's largest matching grant-funded program. The SBDCs, hosted by higher education institutions or state economic development organizations, deliver counseling and training focused on strategic and financial planning, business development, and cash flow management to small businesses and entrepreneurs across the country.

For the first time, SBA, through its Office of Entrepreneurial Development (OED), is requiring SBDCs to work with their respective SBA field offices to develop and execute an annual strategic plan to craft programs and outreach that leverage the expertise of state, local and tribal officials, chambers of commerce, lenders and other public and private entities with the goal of maximizing business development in their respective Opportunity Zones. Each Opportunity Zone plan must be submitted to OED for approval, and each SBDC must also provide SBA with reports throughout the year that will document its efforts and progress in meeting its Opportunity Zone outreach goals.
