

The White House Opportunity and Revitalization Council

Completed Program Targeting Actions

The Opportunity Zone tax incentive is a powerful new tool meant to bring private capital to underserved communities. However, economically distressed communities require more than private capital alone. Many of these communities are in need of public-sector support and regulatory streamlining to ensure they develop the foundations necessary to support a thriving private sector. Public investment in economic development, entrepreneurship, education and workforce training, and safe neighborhoods — along with guidance for engaging with investors and entrepreneurs — will help communities unlock private capital to create sustainable growth. This public-sector investment serves as a means by which to attract and continue the flow of private capital-investment into Opportunity Zones.

Acknowledging this need, President Donald J. Trump signed Executive Order 13853 on December 12, 2018. This Order established the White House Opportunity and Revitalization Council to carry out the Administration's plan to target, streamline, and coordinate Federal resources to be used in Opportunity Zones and other economically distressed communities. This public-sector commitment overlays the Opportunity Zone tax incentive in the Tax Cuts and Jobs Act. Together, private capital and public investment will stimulate economic opportunity, encourage entrepreneurship, expand educational opportunities, develop and rehabilitate quality housing stock, promote workforce development, and promote safety and prevent crime in economically distressed communities. State, local, and tribal leaders have an opportunity to leverage the Commuter Authority Rail Safety Improvement (CARSI) Grantswork of the Council and to also conduct similar reviews of their own programs and regulations.

The White House Opportunity and Revitalization Council members have identified over 300 Federal programs where targeting, preference, or additional support could be granted to Opportunity Zones. As of November 30, 2020, the Council has already taken action on 341 grants or programs:

Department of Agriculture

Conservation Innovation Grants (CIG)	Conservation Innovation Grants (CIG) are competitive grants that drive public and private sector innovation in resource conservation. First authorized by the 2002 Farm Bill, CIG uses Environmental Quality Incentives Program (EQIP) funds to award competitive grants to non-Federal governmental or nongovernmental organizations, American Indian Tribes, or individuals. All projects must involve EQIP-eligible producers.	Projects that are carrying out activities in an Opportunity Zone may be considered as part of the award selection process. Facilities Grant Program is provided in the Consolidated Farm and Rural Development Act (CONAct). The grant funds will be administered in accordance with this notice of funds availability.

Disaster Relief Act 2019 Grant Funds for Community Facilities Technical Assistance and Training Grant

The Rural Housing Service's Community Facilities (CF) Technical Assistance and Training (TAT) Grant Program provides supplemental grant funding for eligible expenses related to the consequences of Hurricanes Michael and Florence and wildfires occurring in calendar year 2018, tornadoes and floods occurring in calendar year 2019, and other natural disasters.

To leverage investments in rural property, the Agency also encourages projects located in rural Opportunity Zones where projects should provide measurable results in helping communities build robust and sustainable economies.

Federal Register Notice published on 2/20/20 (Document Number 2020-03309, Pages 9726-9730) deadline for applications is 4/30/20 (Closed) for electronic applications and 5/5/20 for applications mailed, shipped or sent overnight.

Economic Development

Distance Learning and Telemedicine Grants

This program provides financial assistance to enable and improve distance learning and telemedicine services in rural areas. The grant funds support the use of telecommunications-enabled information, audio and video equipment, and related advanced technologies by students, teachers, medical professionals and rural residents. The grants are intended to increase rural access to education, training, and health care resources

Special consideration points will be given to applications that have at least one end-user site physically located in an Opportunity Zone.

that are otherwise unavailable or limited in scope.

Families to Food Box Program

As part of the Coronavirus Food Assistance Program USDA exercised their authority under the Families First Coronavirus Response Act to purchase and distribute agricultural products to those in need. Through this program, USDA's Agricultural Marketing Service (AMS) is partnering with national, regional and local suppliers, whose workforce has been significantly impacted by the closure of restaurants, hotels and other food service businesses, to purchase up to \$3 billion in fresh produce, dairy and meat products.

USDA entered into contracts with vendors that will have an increased focus on Opportunity Zones in order to direct food to reach underserved areas, places where either no food boxes have yet been delivered, or where food boxes are being delivered but where there is an additional need. USDA also will solicit additional contracts to ensure continued distribution of food boxes in Opportunity Zones.

The increased focus on Opportunity Zones was announced in a press released on June 17, 2020 as follows:

Final Priority for Discretionary Grant Programs

The Federal Register Notice announced that the Department of Education will now provide a priority for discretionary grant programs that supports alignment between the Department of Education's discretionary grant investments and the Administration's Opportunity Zones initiative, which aims to spur economic development and job creation in distressed communities.

The Final Priority - Spurring Investment in Qualified Opportunity Zones" includes three flexible subparts that can be used, as appropriate, across any of Department of Education's discretionary grant programs. When inviting applications for a competition using one or more priorities, the Department of Education will identify the applicable subpart(s) and the type of each priority as absolute, competitive preference or invitational through a notice in the Federal Register.

this FOA will focus on developing next-generation manufacturing material, information, and process technologies that improve energy efficiency in energy-intensive and energy-dependent processes, and facilitate the transition of emerging, cost-competitive energy technologies to domestic production.

communities throughout the United States.

Advanced Reactor Demonstration

This program is intended to facilitate the development of U.S. private industry advanced nuclear reactor demonstrations. It will provide funding for several advanced reactors that are reliable, cost effective, licensable, and commercially viable. These designs are expected to enable a market environment in which commercial reactor services are available that are safe and affordable to both construct and operate when compared to competing, alternative sources of energy in the near- and mid-term. These designs are expected to provide significant improvements in safety, security, economics, and environmental impacts over current nuclear power plant designs.

One of the factors for ranking applications includes whether the entity is located in an urban and economically distressed area including a Qualified Opportunity Zone (QOZ) or the proposed project will occur in a QOZ or otherwise advance the goals of QOZ. The goals include spurring economic development and job creation in distressed communities throughout the U.S.

improve extraction, separation and processing.

Design Development and System Integration Design Studies for Coal FIRST Concepts

Early stage research for the Coal FIRST (Flexible, Innovative, Resilient, Small, Transformative) Initiative supports the development of the coal power plant of the future to provide secure, stable, and reliable power. Coal FIRST power plant concepts will be capable of flexible operation to meet the needs of the grid; use innovative and cutting-edge components that improve efficiency and achieve zero or near-zero emissions, including net-negative carbon dioxide emissions; provide resilient power to Americans; be small (50-350MWe) compared to today's conventional utility-scale coal power plants; and transform how coal power plant technologies are designed and manufactured.

One of the factors that may be considered when ranking applications includes whether the entity is located in an urban and economically distressed area including a Qualified Opportunity Zone or the proposed project(s) will occur in a Qualified Opportunity or otherwise advance the goals of a Qualified Opportunity Zone, including spurring economic development and job creation in distressed communities throughout the United States.

**Developments
(EMPOWERED)**

Building Technologies Office (BTO), to provide professionals with educational materials and training resources in fields newly interacting with distributed energy resources (DER). In this program, DER includes distributed solar, like on homes and businesses, as well as efficient building technologies and sustainable transportation technologies, such as electric vehicles. The goal of this program is to create resources that will help those on the front lines of DER adoption—like first responders, safety officials, and building managers and owners—keep up with these rapidly emerging and advancing technologies. These professionals are at the forefront of America’s energy transition and play a role in easing adoption, ensuring safety, and reducing installation costs. Because of this, the participating EERE offices see these professionals as key to enabling understanding and acceptance of new energy technologies.

Qualified Opportunity Zones. The goals include spurring economic development and job creation in distressed communities throughout the United States.

services in Opportunity Zones.

Youth Engagement in Sports: Collaboration to Improve Adolescent Physical Activity and Nutrition (YES Initiative)

The YES Initiative seeks to support projects that address the HHS priority to expand youth participation in sports and encourage regular physical activity, especially for youth populations with lower rates of sports participation and communities with limited access to athletic facilities or recreational areas. YES Initiative applicants should address unhealthy physical activity and nutrition behaviors in racial/ethnic minority and socio-economically disadvantaged youth, including specifically girls, and provide opportunities to learn skills and gain experiences that contribute to more positive lifestyles and enhance their capacity to make healthier life choices. The YES Initiative intends to identify effective collaborations and/or existing community organizational partnerships that aim to improve physical activity and nutrition by increasing sports participation of racial/ethnic minority and/or socio-economically disadvantaged youth, including specifically girls.

Preference will be provided to projects located in designated Opportunity Zones. Funding decisions expected summer 2019.

Neighborhood Stabilization Program

This notice pertains to the closeout of the Neighborhood Stabilization Program (NSP), which was established under the 2008 Housing and Economic Recovery Act (HERA). The NSP provided grants on a formula basis to all states and selected local governments. Additional NSP funding, including technical assistance, was authorized under the 2009 American Recovery and Reinvestment Act in the form of competitive grants to states, localities, nonprofits, and a consortium of nonprofit entities. In 2010, a third round of NSP grants was authorized on a formula basis to all states and select units of general local governments. The purpose of these funds was to stabilize neighborhoods negatively affected by residential properties foreclosed upon or abandoned. Because NSP has expended 98% of the \$8.639 billion in grant funds and program income and grantees have largely served their identified areas of greatest need, HUD is eager to hasten

Language supporting Opportunity Zones has been added to this notice, including the encouragement of grantees to leverage Qualified Opportunity Fund capital with NSP funds.

Opportunity Zone Grant Certification Form

HUD has drafted a proposed grant certification form. This form will certify that valuable HUD resources are in fact being targeted to and expended in America's most economically distressed areas, including Opportunity Zones. Additionally, it will enable HUD to gather and analyze the most accurate data regarding the use of taxpayer funds; specifically, how they are being utilized by HUD's grantee partners to support the President's mission of revitalizing distressed communities. The collection of this information will help to guide the Department through future grant awards and inform HUD's strategy to maximize non-profit and private sector investment. It is also anticipated that other Federal agencies will also implement this form for their grants offering benefits to Opportunity Zones or distressed communities.

The official 60-Day Notice of Proposed Information Collection for the Opportunity Zone Grant Certification Form was published on October 10th, 2019 in the Federal Register.

Project Rental Assistance Program of Section 811 Supportive Housing for Persons with Disabilities

This program seeks to identify, stimulate, and support sustainable state approaches that will transform the provision of housing for persons with disabilities while providing access to appropriate supports and services. This program provides project-based rental assistance funding to housing agencies. These funds are available to be used as project-based rental assistance for housing units integrated within multifamily properties that are set-aside for extremely low-income persons with disabilities who are eligible for community-based long-term care services and supports provided under a State Medicaid Program or other comparable long-term services program.

The FY 2019 NOFA seeks to identify eligible applicants that will be able to align their Project Rental Assistance Program with state or local initiatives that will increase the supply of permanent supportive housing for persons with disabilities. The NOFA encourages grantees to consider placing units in Opportunity Zones.

Rental Assistance Demonstration – Final Implementation , Revision 4

The Rental Assistance Demonstration (RAD) gives public housing authorities (PHAs) a powerful tool to preserve and improve public housing properties and address the nationwide backlog of deferred maintenance. RAD also gives owners of three HUD "legacy" program (Rent Supplement, Rental Assistance Payment, and Section 8 Moderate Rehabilitation) the opportunity to enter into long-term contracts that facilitate the financing of improvements. In an effort to preserve and improve critically needed affordable housing for low-income seniors, Congress directed HUD to implement a significant expansion of its RAD to facilitate capital investment in senior housing developments assisted through HUD's Section 202 Supportive Housing for the Elderly Project Rental Assistance Contracts (PRAC).

Other changes to RAD include: extending and expands on the stringent resident rights protections built into RAD; allowing a limited contract rent increase for certain converting public housing properties located in Opportunity Zones to help owners access capital for high-impact new construction and substantial rehabilitation investments; and prioritizing conversion of public housing properties located in Opportunity Zones if there is a waiting list for the limited RAD participation authority.

Request for Information – Opportunity Zones

HUD has determined that—in light of Executive Order 13853 “Establishing the White House Opportunity and Revitalization Council”— it should undertake a substantive review of existing policies, practices, planned actions, regulations and guidance regarding HUD-administered

The official Request for Information was published on April 17th, 2019 in the Federal Register.

- FR-6155-N-01 (Federal Register Notice iD HUD 07682) / Posted on 4/17/19; comments due by 6/17/19 (Closed); notice on regulations.gov

Economic Development

programs. The purpose is to identify actions HUD can take to encourage beneficial investment in urban and economically distressed communities, including Opportunity Zones. In conducting this review, HUD believes that it would benefit from information and perspectives among State, local and tribal officials, experts in relevant disciplines, affected stakeholders in the private sector, and the public as a whole. HUD is, therefore, requesting information to guide and enhance this review.

Resident Opportunity & Self-Sufficiency Program

This program assists residents of Public Housing and Indian Housing make progress towards economic self-sufficiency. This program utilizes a service coordination model to ensure resident are linked to supportive services and resident empowerment activities by leveraging public and private resources.

Veterans Housing Rehabilitation and Modification Pilot Program

A number of America’s disabled low-income veterans are in need of adaptive housing to help them regain or maintain their independence. In partnership with the Department of Veterans Affairs, this program addresses these challenges in accordance with the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Pub. L. 113-291, enacted December 19, 2014) by awarding competitive grants to nonprofit organizations that provide nationwide or statewide programs that primarily serve veterans and/or low-income individuals. The grants may be used to support grantees’ partners in providing those services.

Justice Reinvestment Initiative: Reducing Violent Crime by Improving Justice System Performance	This program awards funding to develop and implement innovative and research-based responses that address a range of criminal justice system problems. It employs the Justice Reinvestment approach to criminal justice which recognizes that every justice agency has a role to play in preventing crime, apprehending and prosecuting perpetrators, ensuring efficient and effective court and pretrial decision making, facilitating appropriate sentencing and treatment, and protecting community security. the juvenile justice system. This program supports public safety efforts through partnerships with juvenile justice, mental health and substance abuse agencies to enhance responses to justice-involved youth with MI and CMISA.

Juvenile Justice System Enhancements

This program awards funding to support states, territories, tribal communities, and units of local government to develop, implement, and test innovative and research-based responses to crime and other public safety and community challenges, as identified through data analysis. Challenges may include chronic crime problems, emerging crime problems, issues related to investigating and prosecuting online child exploitation, or barriers to juvenile justice agencies' ability to address such problems, including those related to juvenile arrest, detention, referral to court, diversion, adjudication, disposition to probation, out-of-home-placement, other sanctions or services, and aftercare.

**Assessment
Solutions for
Safer Schools
Program**

Specifically, the BJA program will address: (1) training school personnel and students to prevent student violence; (2) development and operation of anonymous reporting systems against threats of school violence, including mobile telephone applications, hotlines, and websites; and (3) development and operation of school threat assessment and crisis intervention teams that may include coordination with law enforcement agencies and school personnel. In addition, the program may fund specialized training for school officials in intervening and responding to individuals with mental health issues that may impact school safety. This solicitation specifically seeks applications that address the development and operation of school threat assessment and crisis intervention teams and the development of technology for local or regional anonymous reporting systems. This technology may be in the form of an app, hotline, or website. The proposed technology solutions may be those that could be used during an incident to assist in securing the safety of those involved, to include sharing information with first responders.

Sexual Behavior
Problems**

comprehensive approach to responding to youth with sexual behavior problems, their child victims, and their families as well as a training and technical assistance provider to support project sites in developing intervention models. The purpose of this program is to prevent sexual reoffending, promote healing, and provide services for victims and families. The program will focus on interfamilial and/or co-residential child victims and youth with problematic sexual behaviors. Examples of these types of sexual behaviors include, but are not limited to, sexual contact between children who do not know each other well (i.e., foster home or institutional setting); sexual contact between children of different ages, sizes, and developmental levels; aggressive or coerced sexual contact; sexual contact that causes harm to the child or others; and sexual contact that causes another child to be highly upset and/or fearful. Applicants should propose comprehensive, evidence-based intervention strategies for serving both the child victim(s) and the youth with sexual behavior problems and their parents/caregivers.

for selection in the 2019 Solicitation.

(Closed); grant on Grants.gov

**Supporting
Victims of Gang
Violence**

The program awards funding to support the efforts of communities to promote justice and healing for juvenile victims and their families as well as witnesses that have been affected by gang violence in their community. Under this initiative, organizations working closely with the criminal justice system will provide comprehensive victim assistance services to ensure that youth (and their families) impacted by gang violence are not further traumatized and have adequate supports to feel safe in their community. This may include emergency crisis response, referrals for services, post-trial notification, and liaison services during the legal process. In addition, similar services will be provided to youth witnesses of gang violence.

Opportunity Zones are a priority consideration area for selection in the 2019 Solicitation.

partnerships that will enhance and increase law enforcement responses to people with MI and CMISA.

Transforming America's Response to Elder Abuse: Enhanced Multidisciplinary Teams (E-MDTs) for Older Victims of Abuse and Financial Exploitation

This program will support the development and/or enhancement of multidisciplinary teams (MOT) and to strengthen the capacity of "enhanced MDTs" to better identify and respond to cases of abuse and more comprehensively serve and support victims of elder abuse and financial exploitation by also funding a National Elder Abuse Training and Technical Assistance Center. Through these E-MDTs, the Office for Victims of Crime (OVC) hopes to improve case outcomes while minimizing additional trauma and restoring safety and security to older adult victims of crime and potentially hold offenders accountable.

Youth Gang Desistance / Diversion Grant Program

This program awards funding for focus on targeted efforts to reduce gang activity by focusing on strategies to disrupt recruitment and incentivize desistance by supporting programs that offer alternative support mechanisms for youth. Law enforcement and prosecutorial agencies will be critical partners for this proposed initiative. Funding to prosecutorial and law enforcement agencies would support diversion activities as well as targeted incentives such as tattoo removal and life skill training for youthful gang members seeking to desist from gang activity.

Safe Neighborhoods

Suppression is a key component of OJJDP's Comprehensive Gang Model. Focused deterrence and suppression strategies can dissuade individuals and gangs from committing crimes. Such approaches highlight the punishments or legal recourse that will ensue in the commission of a crime and discourage the person or group from committing crimes in the future. These efforts, coupled with the other key components of the Comprehensive Gang Model, offer a holistic approach to support the efforts of law enforcement in combatting gang crime and promote public safety in communities. Eligible applicants will be required to implement OJJDP's Comprehensive Gang Model by working with the National Gang Center, and may use grant funds to support gang suppression activities.

Youth Mentoring (For Opioid Impacted Youth)

Hazardous Materials Emergency Preparedness (HMEP) Tribal Grants

This program provides funds for applications from federally recognized tribes and tribal nonprofit organizations representing federally recognized tribes to provide assistance to public sector employees through training and planning grants for emergency response. The purpose of the Hazardous Materials Emergency Preparedness (HMEP) grant program is to increase State, Territorial, Tribal, and local effectiveness in safely and efficiently handling hazardous materials incidents, enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA), and encourage a comprehensive approach to emergency training and planning by incorporating the unique challenges of responses to transportation situations.

Investing in Qualified Opportunity Funds

The "Investing in Qualified Opportunity Funds" final regulations govern the extent to which taxpayers may elect the Federal income tax benefits provided by Section 1400Z-2 of the Internal Revenue Code with respect to certain equity interests in a qualified opportunity fund (QOF).

The final regulations address the comments received in response to the two notices of proposed rulemaking issued under section 1400Z-2 and provide additional guidance for taxpayers eligible to elect to temporarily defer the inclusion in gross income of certain prior gains if corresponding amounts are invested in certain equity interests in QOFs, as well as guidance on the ability of such taxpayers to exclude from gross income additional gain recognized after holding those equity interests for at least 10 years. The final regulations also address various requirements that must be met for an entity to qualify as a QOF, including

ov/programs-training/Programs/cdfi - program/Pages/default.aspx

The final regulations are effective on 3/13/20. The final regulations were published in the Federal Register on 1/13/20. The regulations as so posted are located at <https://www.govinfo.gov/content/pkg/FR-2020-01-13/pdf/2019-27846.pdf>

Economic Development

requirements that must be met for an entity to qualify as a qualified opportunity zone business. The final regulations affect entities that self-certify as QOFs and eligible taxpayers that make investments, whether qualifying or non-qualifying, in such entities.

Native American CDFI Assistance Program (NACA) – Financial Assistance Application

NACA Financial Assistance awards are available to certified CDFIs that demonstrate that at least 50 percent of past activities were in one or more Native Communities and that will use an award to target lending/investing activities to one or more Native Communities. Financial Assistance Awards promote economic and community development through investment in, and assistance to, Community Development Financial Institutions (CDFIs), which include community development banks, credit unions, loan funds, and venture capital funds. Native CDFIs use Financial Assistance (FA) awards to expand the availability of financial services and affordable credit to underserved populations.

Small Business Administration

504 Loan Program (Certified Development Companies)

This program fuels economic growth and job creation by providing small businesses with long-term, fixed-rate financing to acquire fixed assets (e.g., real estate, buildings, machinery).

On November 2, 2018 via Federal Register Notice, SBA designated Opportunity Zones as additional areas where our 504 Program’s job creation or retention requirements will be more relaxed, to incentivize lending by Certified Development Companies (CDCs) and Third-Party Lenders in these areas. Opposed to a requirement

Federal Register Document Number: 2018-24033; Posted on 11/2/18. <https://www.federalregister.gov/documents/2018/11/02/2018-24033/development-company-loan-program-job-creation-and-retention-requirements-additional-areas-for-higher>

Entrepreneurship

to create or preserve one job for every \$75,000 guaranteed by SBA, the requirement for specially-designated areas (which now includes Opportunity Zones) is now \$85,000 per job created or preserved if the project is in an Opportunity Zone.

7(a) Loan Program

SBA's flagship loan program provides small businesses with access to capital to finance a wide variety of business activities, including purchasing machinery, furniture, fixtures, supplies and materials, improvements to land and buildings, and working capital.

For FY2019, 7(a) loans in the amount of \$150,000 or less made to small businesses where the physical address of the operating concern is located in a rural area or a historically underutilized business zone (HUBZone), both of which overlap significantly with Opportunity Zones:
(a) the annual service fee paid by lenders will be zero
(b) the upfront guaranty fee typically paid by the small business applicant will be lowered significantly to 0.6667% (66.67 basis points) of the

Entrepreneurship

guaranteed portion of the loan.

Community Advantage Loan Pilot Program

The Community Advantage (CA) Pilot program is intended to expand small business access to capital in underserved markets by allowing mission-focused, community-based lenders to make 7(a) loans to small businesses in an amount up to \$250,000, with an SBA guarantee as high as 85 percent.

Effective October 1, 2018, SBA expanded the Pilot Program definition of “underserved markets” to include Opportunity Zones. CA lenders are required to make at least 60% of their CA loans in underserved markets.

Growth Accelerator Fund Competition

This prize competition, pursuant to the America COMPETES Act, recognizes the nation's most innovative accelerators and awards them cash prizes that they may use to fund their operations costs focused towards helping entrepreneurs apply for government R&D funding. SBA will award up to 60 prizes of \$50,000 each for a total of \$3 million in prizes.

Participants in this competition must target at least 60% of the Growth Accelerator's effort under the funding opportunity to entrepreneurs in one of four specified groups. One of the targeted groups is: "Entrepreneurs that live in an Opportunity Zone, or whose businesses are located in and operate out of an Opportunity Zone." The competition begins on June 10, 2019 and ends June 20, 2019.

HUBZone Program Provisions for Governor-Designated Covered Areas

The Federal government limits competition for certain contracts to SBA-certified small businesses in historically underutilized business zones (HUBZones), areas with low income, high poverty and/or high levels of unemployment. It also gives preferential consideration (i.e., 10 percent price evaluation preference) to those businesses in full and open competition. Congress has statutorily imposed Federal small business procurement goals; namely, that the Federal government shall direct a percentage of contract spending dollars to small businesses and certain categories of small businesses. Currently, one of the contracting goals is that 3 percent of all Federal prime contracting dollars go to HUBZone-certified small businesses; who commit to employing HUBZone residents.

SBA issued a direct final rule on November 18, 2019 that will allow governors to petition the SBA's Administration to designate HUBZone status to certain covered areas. A covered area is an area in a state that is located outside of an urbanized area, as determined by the Census Bureau, with a population of not more than 50,000, and for which the average unemployment rate is at least 120 percent of the average unemployment rate. The rule was published in the Federal Register and is effective January 1, 2020, unless significant adverse comment is received by December 15, 2019. SBA

Federal Register Notice published on 11/15/19 (Document Number 2019-24610, Pages 62447-62449) located at https://www.federalregister.gov/documents/2019/11/15/2019-24610/hubzone-program-provisions-for-governor-designated-covered-areas?utm_medium=email&utm_source=govdelivery

anticipates that included within the covered areas that a Governor may seek to be designated as a qualified HUBZone area are Opportunity Zones, that do not otherwise qualify as HUBZones.

Makerspace Training, Collaboration and Hiring (MaTCH) Pilot Competition

The MaTCH Pilot Competition, pursuant to the America COMPETES Act, seeks to address the job skills and placement gap faced by U.S. businesses by providing funding to create or expand programs within existing makerspaces that offer job-specific and soft skills training. The Competition will award up to \$1 million in total prizes, based on a tiered approach. Up to \$25,000 will be awarded in seed small workforce development programs; up to \$100,000 will be awarded to grow programs with a proven history of training and/or workforce development; and up to \$200,000 will be awarded to capacity building of successful existing programs with a strong history of training and/or workforce development.

Additional factors may be considered in the application review, such as, but not limited to whether the Makerspace and/or jobs filled are located in an Opportunity Zone.

Competition opened on 5/21/19 and applications are due on 7/8/19 (Closed); competition posted on SBA's website at <https://www.sba.gov/mat ch>

Small Business Development Centers

The SBDC program, a vital part of the entrepreneurial ecosystem that links the resources of Federal, State and local governments with that of the educational community and private sector, is the SBA's largest matching grant-funded program. The SBDCs, hosted by higher education institutions or state economic development organizations, deliver counseling and training focused on strategic and financial planning, business development, and cash flow management to small businesses and entrepreneurs across the country.

SBA, through its Office of Entrepreneurial Development (OED), is requiring SBDCs to work with their respective SBA field offices to develop and execute an annual strategic plan to craft programs and outreach that leverage the expertise of state, local and tribal officials, chambers of commerce, lenders and other public and private entities with the goal of maximizing business development in their respective Opportunity Zones. Each Opportunity Zone plan must be submitted to OED for approval, and each SBDC must also provide SBA with reports throughout the year that will document its efforts and progress in

Women's Business Center (WBC) – Initial Phase

The mission of the WBC Program is to act as the catalyst for providing in-depth, substantive, outcome-oriented business services to women entrepreneurs, both nascent and established businesses, a representative number of which are socially and economically disadvantaged. This mission is accomplished through the award of financial assistance to private, 501(c)-certified non-profit organizations to enable them to affect substantial economic impact in their communities, measured by outcomes such as successful business start-ups and capital infusion. There are currently over 100 centers in the WBC network.

The FY20 grants bonus points are awarded for projects that meet the needs of socially and economically disadvantaged communities where the project currently operates in an Opportunity Zone and/or partner with an Opportunity Fund.

lenders and other public and private entities.

- For the FY19 grant the SBA recognized the importance of ensuring access to capital to Opportunity Zones so for the first time, WBCs were required to develop detailed outreach plans focusing on how they will encourage business development in Opportunity Zones. These plans should be developed in conjunction with the appropriate SBA Regional Administrator and SBA District Office and coordinated with state, local and tribal economic development officials, chambers of commerce, lenders and other public and private entities. Relatedly, in both their Semiannual and Final reports, each WBC must

discuss how their outreach and business development efforts in Opportunity Zones helped the WBC achieve its performance metrics. The Final Report should also discuss the impact of Opportunity Zone partnership efforts on new business starts and capital infusion outcomes.

Federal Permitting Improvement Steering Council

<p>Land Revitalization Sector</p>	<p>The Federal Permitting Improvement Steering Committee (Permitting Council) was created under the Fixing America's Surface Transportation Act (FAST Act). Title 41 of the FAST Act (FAST-41) created the Permitting Council and gave it the authority to guide large infrastructure projects that fit into designated sectors through the Federal environmental review and authorization process. FPISC consists of members from the Council on Environmental Quality (CEQ), Office of Management and Budget (OMB), the Advisory Council on Historic Preservation, and 13 Federal agencies. Projects covered under the Permitting Council involve construction of infrastructure, require authorization or environmental review by a Federal agency, are subject to the National Environmental Policy Act of 1969 (NEPA), likely to require a total investment of more than \$200 million, and do not qualify for an abbreviated environmental review and</p>	<p>The Permitting Council voted to add land revitalization as a covered infrastructure sector to minimize the regulatory and administrative costs and burdens that discourage public and private investment in urban and economically distressed communities. These projects can now include the development, expansion or reuse of a previously developed and extensively modified or contaminated property owned, leased, abandoned or managed by state, local or tribal governments, non-governmental organizations, or the private sector, including those within an Opportunity Zone, those receiving financial assistance from a Qualified Opportunity</p>	<p>The press release announcing the FPISC (Permitting Council) action was released on January 16, 2020 and is located at https://cms8.permits.performance.gov/sites/performance.gov/files/2020-01/LR%20Press%20Release%20ED.pdf</p>	<p>Economic Development</p>

authorization process. FAST-41 does not supersede, amend, or modify any Federal statute, such as NEPA, nor does it create a presumption that a covered project will be approved or favorably reviewed by any agency. FAST-41 is a voluntary process; project sponsors must opt-in and meet the requirements for inclusion.

Fund or those subject to federal, state, local or tribal cleanup programs or other similar revitalization efforts.

Executive Office of the President

<p>Commission on Law Enforcement and the Administration of Justice</p>	<p>The Executive Order 13896 issued by the President established a Commission on Law Enforcement and the Administration of Justice (Commission) and designated an individual to chair the Commission. The Commission shall study issues related to law enforcement and the administration of justice and make recommendations Start Printed Page 58596to the Attorney General, who shall submit a report and recommendations to the President on actions that can be taken to prevent, reduce, and control crime, increase respect for the law, and assist victims. The Commission shall undertake, as directed by the Attorney General, a review of relevant research and expertise and make recommendations</p>	<p>The review of relevant research and expertise and make recommendations regarding important current issues facing law enforcement and the criminal justice system includes the potential for public and private initiatives, including in "qualified opportunity zones" to reduce crime and improve police-community relations.</p>	<p>Federal Register Document Number: 2019-24040; Posted on 11/1/19.
